What is Online Tasbih Counter (OTC) ?

This is a free, browser-based tool built for one job: counting accurately, in real time, without losing your place. Use it to track tasbeeh (dhikr), workout reps, attendance, sports scores, inventory, knitting rows, event visitors, or laps — every tap updates your total instantly. It's lightweight enough to run smoothly on desktop, tablet, or mobile, saves your progress automatically in your browser, and needs no sign-up, download, or installation to get started

How To Use This Simple Counter

1

Set Your Target

Enter a custom target before counting begins. Use presets like 33 or 100, or set any number — your progress saves automatically every time

2

Set Your Step

Choose how much each tap adds. Go by one, five, ten, or any custom step — perfect for reps, dhikr, scores, or inventory.

3

Start Counting Now

Tap once and watch your total update instantly. Reach your goal and a sound alert plays automatically.

Why a Digital Counter Beats Manual Counting?

Counting by hand — on paper, from memory, or with physical beads — is where mistakes creep in. Going digital removes that risk: every tap is recorded instantly, whether you're tracking dhikr, workout reps, attendance, sports scores, inventory, or knitting rows. Auto-save, custom targets, multiple sessions, sound alerts, and fullscreen mode round it out, making it dependable for everyday use on any device.

-  **Always Accessible:** Count your dhikr anytime, anywhere from your phone, tablet, or computer.
-  **Accurate Counting:** Track every tap without mistakes.
-  **No Physical Beads Needed:** Track your dhikr digitally, no tasbeeh required.

Key Takeaway

A digital way to track your dhikr keeps it simple, accurate, and always within reach — so your attention stays on remembrance, not on the numbers.

Frequently Asked Questions

Got questions? We've got answers.

Is this digital online counter really free and safe?

Yes — every tool here, including the reps tracker, scorekeepers, and event counter, is completely free and safe to use, with no sign-up required. The site is supported by light, non-intrusive ads rather than a paid tier.

Does this work without an internet connection?

What happens if I'm interrupted mid-count?

Can I use this for dhikr or prayer counting?

Will my data be shared with anyone?
